

Crossover Higher

Crossover Higher is a challenging, dynamic, and interdependent three-level course for high school students. It is designed to take students through level B2 of the Common European Framework of Reference for Languages (CEFR).

Crossover Higher builds on students' previous knowledge and brings them closer to the day-to-day issues of the world outside the classroom. All of the activities are specifically designed to stimulate students' interests, evoke opinions, and develop critical thinking skills in a meaningful way.

Crossover Higher

- Presents language in a broad variety of authentic reading texts.
- Provides a comprehensive approach to grammar and functions.
- Follows a product-based approach, giving direction to the learning process and providing opportunities for paper-based or online project work.
- Includes ample practice of all four skills, with PET and FCE-style exam activities throughout.

For the student:

Student's Book

Workbook with Multi-ROM

For the teacher:

Teacher's Guide with Class CD

Online Teacher's Resources

- Digital Book for interactive whiteboard
- Test Generator

Workbook
1

Reader

Improving **English**. Developing **people**.
